PROFILE

Recently graduated computer engineer, with solid academic training and practical experience acquired through personal and university projects. I have knowledge in multiple programming languages and areas of software development, which allows me to address both the frontend and backend of web applications. I specialize in creating attractive and functional interfaces, with special interest in user experience, although I have also developed servers and APIs for various projects. All my experience has been developed in my country, which has allowed me to deeply understand local challenges and adapt quickly to different technical environments.

WORK EXPERIENCE

Sales and Maintenance Manager | Chemical Sector

OLH Chemistry – Jan 2021 – Dec 2024

- Coordinated preventive and corrective maintenance processes in industrial facilities, ensuring operational continuity.
- Managed commercial relationships with clients in the chemical sector, promoting sales and loyalty.
- Supervised the technical inventory and logistics of supplies to guarantee efficiency in the services provided.
- I implemented improvements in safety and maintenance protocols, reducing downtime.

Web Developer | Fullstack

Intersis – Jan 2024 – Oct 2025

- Developed web applications with a frontend focus using modern technologies such as React, Tailwind and Vue.
- Implemented REST servers and APIs for different internal modules, integrating SQL databases.
- I collaborated in the design of responsive and functional interfaces, optimizing the user experience.
- Participated in the planning and execution of internal projects, from prototype to deployment.

Web Maintenance Manager | Inventory Systems

OLH Química – Nov 2025 – Current

- Responsible for the maintenance and evolution of the internal inventory and logistics management web systems.
- I program new functionalities in the interface and backend, adapting the flows to operational needs.
- I fix bugs, optimize queries and refactor components to improve performance and scalability.
- Work with modern web technologies to ensure a smooth and secure experience for internal users.
- Coordinate with the administrative team to validate requirements and ensure the accuracy of data in real time.

LANGUAGES

Spanish: Native (C2), *English*: Basic(A2), *Portuguese*: Beginner(A1)

EDUCATION

Universidad Rafael Urdaneta - -computer Engineer - 2021-2025
